## ABOUT ME

---

Being intrigued by the idea of solving problems that are new to me, I actively participate in competitive programming from the very beginning of my undergrad journey. During the process, I learned a lot of data structures and algorithms, gained various skills such as - observation, teamwork, handling pressure and grew fond of taking new challenges

## EDUCATION

---

**BSc in Software Engineering**, Shahjalal University of Science and Technology  
CGPA : 3.56 (upto 5th semester)

Expected 2023

## ACHIVEMENTS

---

- Top 10 in ICPC Dhaka Regional Preliminary Contest 2021
- Top 10 in AUST IUPC 2022
- Also participated in:
  - ICPC Dhaka Regional Main Round 2020
  - ICPC Dhaka Regional Main Round 2021
  - BUET IUPC 2022
  - RUET IUPC 2022
  - SUST IUPC 2019
- Codeforces max-rating : 1900+
- Codechef max-rating : 2050+

## PROJECTS

---

**Sust Swe Online Judge** Built an online judge system for hosting the intra-department contests of SWE, SUST. I worked on the front end of this project using reactJS, implemented socket programming in both front and back end, worked on backend with express and sequelize

**Valo Basha** Built an app to search for valo basha (good house) using android studio, java and firebase

**Story Hub** Built a website for sharing and reading stories using React, Express and Sequelize (mysql)

**Ludu++** Built a 4/6/8 player offline ludo game with sfml

## TECHNICAL SKILLS

---

- c, c++, java, javascript, node, react, mysql

## VOLUNTEERING EXPERIENCE

---

- I was involved in planning and taking workshops of my juniors on competitive programming 2020 - now
- SUST Techfest: I was in decoration team for opening and closing ceremony 2019

## OTHER INTERESTS

---

- Travelling, Watching movies, Playing games
